

EAGLE EYRIE

Randal Palmer, Principal

**Junior High
Chromebook
Collection Date is**

**Tuesday, March 10,
2020**

Since all CMAS testing for 7th & 8th graders is done in an online platform, it is necessary for us to collect all junior high students' Chromebooks for testing season. The junior high teachers make classroom adjustments to help facilitate the inconvenience of students not having their individual Chromebooks. Please have your student bring in his/her Chromebook AND CHARGER on Tuesday, March 10, so our tech department can prepare them all for the upcoming testing season.

Meaningful and relevant tests work hand-in-hand with rigorous academic standards. The state's summative tests are called the Colorado Measures of Academic Success, which measure students' mastery of the standards and the complex thinking and other critical skills students need to be successful in school and in life.
